Objective

I'm the connection between design and development. User experience is my passion, code is my tool. I collaborate between design and UX teams to build amazing, user-friendly Web interfaces, with a strong focus on modern technologies, responsive design, presentational JavaScript, accessibility, and performance.

Experience

- 2013 - present
UX Dev @ Gartner Inc.
-Enable CSS Grid & Flexbox in new company-wide templates/style guide
-Work with Sass / Grunt.js to redesign internal Sales website
Implement Bootstrap / jQuery to web interfaces and responsive front-end
-Use skills to accomplish daily task list for Intranet/Digital Signage
-Work with team of developers to create and QA the Marketing site
- 2011 - 2013 - San Francisco
Front-End Dev @ Red Bricks Media
-Developed responsive HTML/CSS templates for companies: AT&T, Academy of Art
-Worked with Senior Developer to create sites with CMS such Wordpress, Drupal, Joomla
-Worked with designers to create mock ups, Flash banners, and wireframes

Education

- 2013 - San Francisco
The Art Institute of California - San Francisco
Associate of Science, Web Design & Interactive Media
GPA 3.4 / Dean's List
SWAP - Society of Web Artists and Programmers Member
- Certifications & Various Classes completed at:
Code School
Pluralsight
Codecademy

Skills

What I do		What I Use	
UX	<div><div></div></div>	CSS / Grid	<div><div></div></div>
Wireframing	<div><div></div></div>	Sketch	<div><div></div></div>
Accessibility	<div><div></div></div>	HTML 5	<div><div></div></div>
Leadership	<div><div></div></div>	Javascript	<div><div></div></div>
